

## NEWS FROM ALASKA.

The Cruise of the Bear—Belvedere Introduced—Plenty of Whales.

WASHINGTON, D. C., Oct. 19.—Captain M. A. Healy, U. S. R. M., in a long report to the secretary of the treasury dated Unalaska, September 25, of the cruise of the steamer Bear in North Arctic waters, says that the steamer established the station projected by the interior department at Port Clarence and started with 177 deer and with great promise of success the work of introducing reindeer into Alaska.

In giving a detailed account of the cruise of the revenue steamer Bear, Captain Healy says that the annual visit of the vessel to Northern Alaska has now become the time for the adjustment of differences of all kinds, the starting of new enterprises and the correction of various abuses.

Captain Healy says the season has been particularly open, and nearly the entire whaling fleet had gone east of Point Barrow when the Bear sailed south. The schooner Mary D. Hume made the extraordinary catch of thirty-nine whales during the spring. The establishment of the refuge station at Point Barrow, with its constant supply of provisions, has encouraged the whalers to go farther north and into more profitable places in pursuit of their trade with the knowledge that in case of accident they will not be left to the mercy of an Arctic winter without food or shelter. Captain Healy says his efforts to prevent the introduction of spirituous liquor into Alaska were unusually successful despite the great extent of territory to be patrolled, and is of the opinion that he has driven the liquor traffic out of the country. The Bear will assist the United States steamer Adams in guarding the seal islands until December 1.

## KNEW LIZZIE BORDEN.

A Young Man Under Arrest Who Tells Conflicting Stories.

RICHMOND, VA., Oct. 19.—A good looking and intelligent young man, claiming to be named John Woods, who came here about two weeks ago, has been arrested on suspicion of having been in some way connected with the Borden murder. He was seen in the jail and denied statements credited to him to the effect that he was well acquainted with Lizzie Borden. When asked where he was at the time of the tragedy, he could not answer but said that he was probably in Jersey City, or Newark, or Philadelphia. He stated in the interview that he knew Lizzie Borden by reason of having seen her in the streets of Fall River twice and again in church, but that he never spoke to her. Woods, however, told the officers who arrested him that he knew the girl well and that he and she were good friends. The pop corn man whom he worked for states that the prisoner told him that he (Woods) had taken Lizzie Borden out to the theatre and to church a number of times. When first questioned as to how long he lived in Fall River, the accused replied, only four months, two years ago. He afterwards admitted that he resided there the first half of this year, leaving there about the first of July, when he first lived in the place where the crime was committed he was, according to his statement, in the employ of James Marshall, hat manufacturer. He admits that he once went under a different name.

BIRMINGHAM, ALA., Oct. 19.—General Stevenson's visit to Birmingham was marked by perfect order and enthusiasm. ## Bellaire.

All Sorts of Local News and Gossip from the Glass City.

There have been \$141,381 12 paid to the pike contractors for work in this township on the new system of pikes. They were started with an idea that \$90,000 would build them; an additional \$30,000 was afterwards given, which together with the premium on the bonds sold made \$121,767. Added to this is \$5,000 in taxes and about \$1,000 in tolls, and this covers all of the township resources. But the bridge and culvert masonry is to be paid out of the county treasury and some of the money will be covered into the pike fund again. The pikes are not nearly completed. There is not a sign of a stone on the road leading up the river.

Thomas Davis was thrown over the head of a colt he was breaking, and fell on his head and shoulders in such a way that he died a few hours later. This occurred Tuesday evening a few miles west of town. He was a son of Maurice Davis, ex-township trustee, and was a married man, leaving a wife and three children. He thought he had the colt tolerably well broken, and went out on the run road with him, but the young animal reared and plunged until Davis fell among the rocks and injured his spine.

C. Rumbach and other Democrats have begun to think the return of that pet coon after an absence of eighteen months is an omen of evil to the Democracy. They take it that this was a good time for "that same old coon" to appear, and they have tied another knot in their wallet string to keep from banking on Democratic success.

Miss Nettie Whiteside, a popular young society lady of Water street, entertained the Owlettes, a very exclusive club, at their regular monthly meeting last night. The evening was very enjoyable spent in music and conversation. At a late hour a most tempting supper was served.

It is the opinion of some people that the "Calamity howlers" would find Benwood about as favorable a place for their operations as Fairmont. Such is the rush of business at the Wheeling Steel Works that the mill cannot be idle for the celebration of Columbian Day.

Will Allinger, an employee of the Wheeling steel plant, had his foot so badly injured by the wheel of a lathe falling on it that it is feared it is broken. A wagon was secured and he was taken to his home in the north end.

## A NOTE OF WARNING.

There is Certainly Danger Ahead For Us.

We Do Not Mean to Cause Alarm in This Community.

But There is a Grave Matter Which Demands Attention.

It is a sad and alarming fact that the community in which our paper circulates is terribly afflicted at present with a most serious form of disease which fifty years ago was almost unknown.

Are we in danger? The answer is decidedly yes, unless immediate action is taken.

If the disease is small-pox, diphtheria, typhus fever or other contagious affection, how quickly and energetically our people would rise and crush out its progress. But because the disease is not contagious we have heretofore shut our eyes to its dangers.

The form of affection about which we write, that is rapidly becoming so prevalent in our midst, and concerning which we desire to sound the note of alarm, is that class known as nervous diseases. It is attacking all ages and all classes of people, those who follow professions as well as business men, clerks, mechanics and laborers. It manifests itself in various ways and forms, but the cause is always the same—weakness of the nerves.

Just why there should be such an enormous increase of nervous affections among our residents is difficult to understand, yet, as all can see, such diseases are becoming fearfully common.

Men and women complain of feeling weak, tired, nervous, with feeling of exhaustion, both nervous and physical. They do not sleep or eat well, wake more tired mornings than when they retire, their stomachs are out of order, bowels constipated, liver torpid, and the kidneys may be affected, giving pain and weakness in the back, while the water appears unnatural and often has a sediment.

But the principal symptoms are the nervousness, and weak, tired and prostrated feelings.

A lady of our acquaintance, Miss Annie Oakes, who resides in Athol Center, Mass., has been a great sufferer from nervous affections, and thinking that her experience, and especially how she succeeded in curing her troubles, may be of great service to those of our readers who may be similarly suffering, we give below her own words in regard to the case:

"I suffered from nervous and physical prostration, was very nervous, weak and run down. I was sleepless, only sleeping three hours in twenty-four. I took Dr. Greene's Nervura blood and nerve remedy and before I had taken one bottle I began to improve. It was wonderful. Everybody was surprised to see how I had gained in strength and flesh. I now sleep seven hours every night and have gained 19 pounds. So I say every day God bless Dr. Greene's Nervura blood and nerve remedy. I also had the Grippe, but came up from that terrible disease on the Nervura all right."

Now we know all about this case, that every word is true, and we assure our readers that this wonderful medicine is an absolute specific—a sure and positive cure for these nervous diseases. We therefore advise its immediate use, and if sufferers will heed our advice, our community will not be long in ridding itself of all nervous affections, before they run into those dread results, insanity, paralysis, nervous prostration or death.

This wonderful remedy is not a patent medicine, but is the prescription and discovery of the great specialist in nervous and chronic diseases, Dr. Greene, of 35 West Fourteenth street, New York, who can be consulted free by mail, personally or by letter.

Don't fail to get this remedy at once from your druggist for it is purely vegetable and harmless, and costs but \$1. It will cure you.

## Naval Celebrations.

C., to assist in the local celebration.

## A Bad Democrat.

SPRINGFIELD, OHIO, Oct. 19.—"Doc" Campbell, who created a national sensation some years ago, and was sent to the Ohio penitentiary for forging the numbers on a tally sheet in the interests of the Democrats, was caught and jailed yesterday for stealing a horse and buggy.

## Fail to Do Our Duty.

Everybody has at times failed to do their duty towards themselves. Hundreds of lady readers suffer from sick headache, nervousness, sleeplessness, and female troubles. Let them follow the example of Mrs. H. Herbercher, Stevens Point, Wis., who for five years suffered greatly from Nervous Prostration and sleeplessness, tried physicians and different medicines without success. But one bottle of Dr. Miles' Nervine caused sound sleep every night, and she is feeling like a new person. Mrs. Elizabeth Wheeler, Laramie City, Wyoming, who tried all other remedies, declares that after three weeks' use of the Nervine for Headache, Nervous Prostration, etc., she was entirely relieved.
